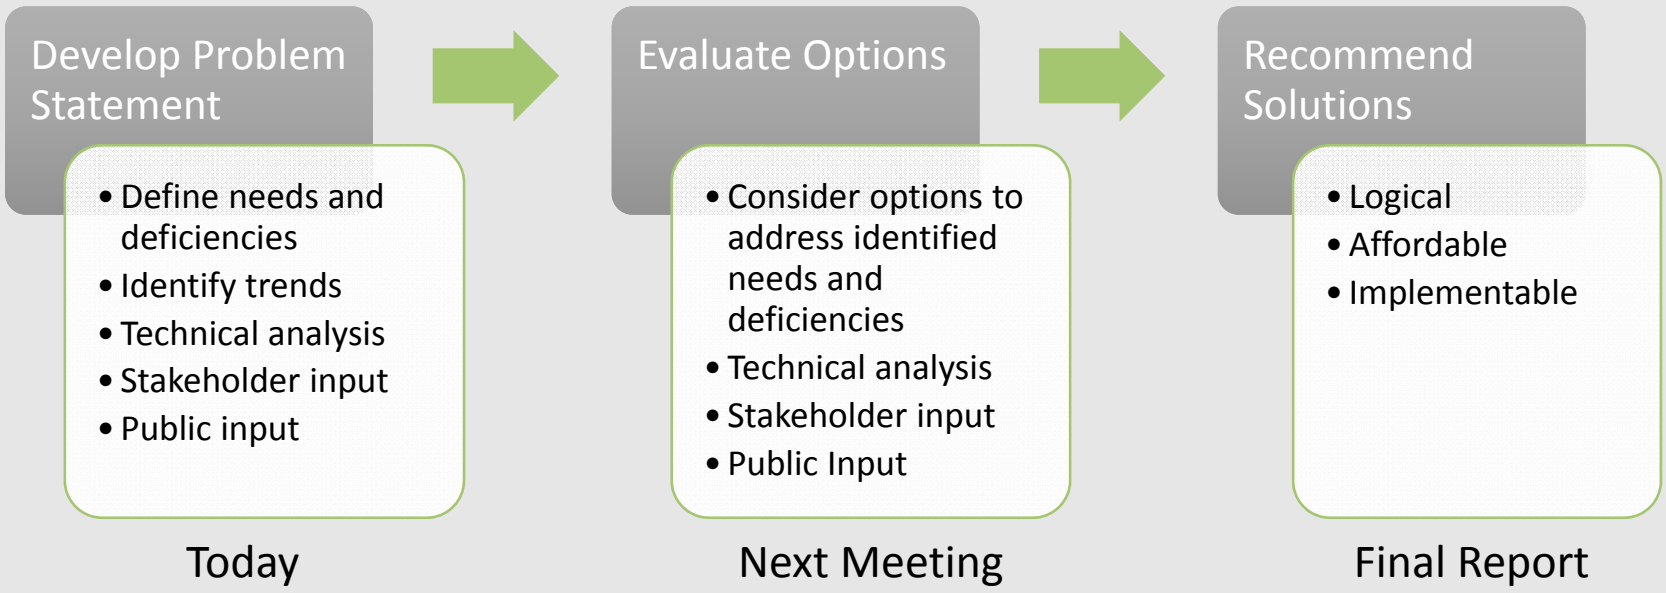
Study Purpose and Goals

Clearly identify and define current transportation problems with traffic in the Maxwell Hill area

Identify cost effective solutions to address the specific issues and reduce “cut-through” traffic

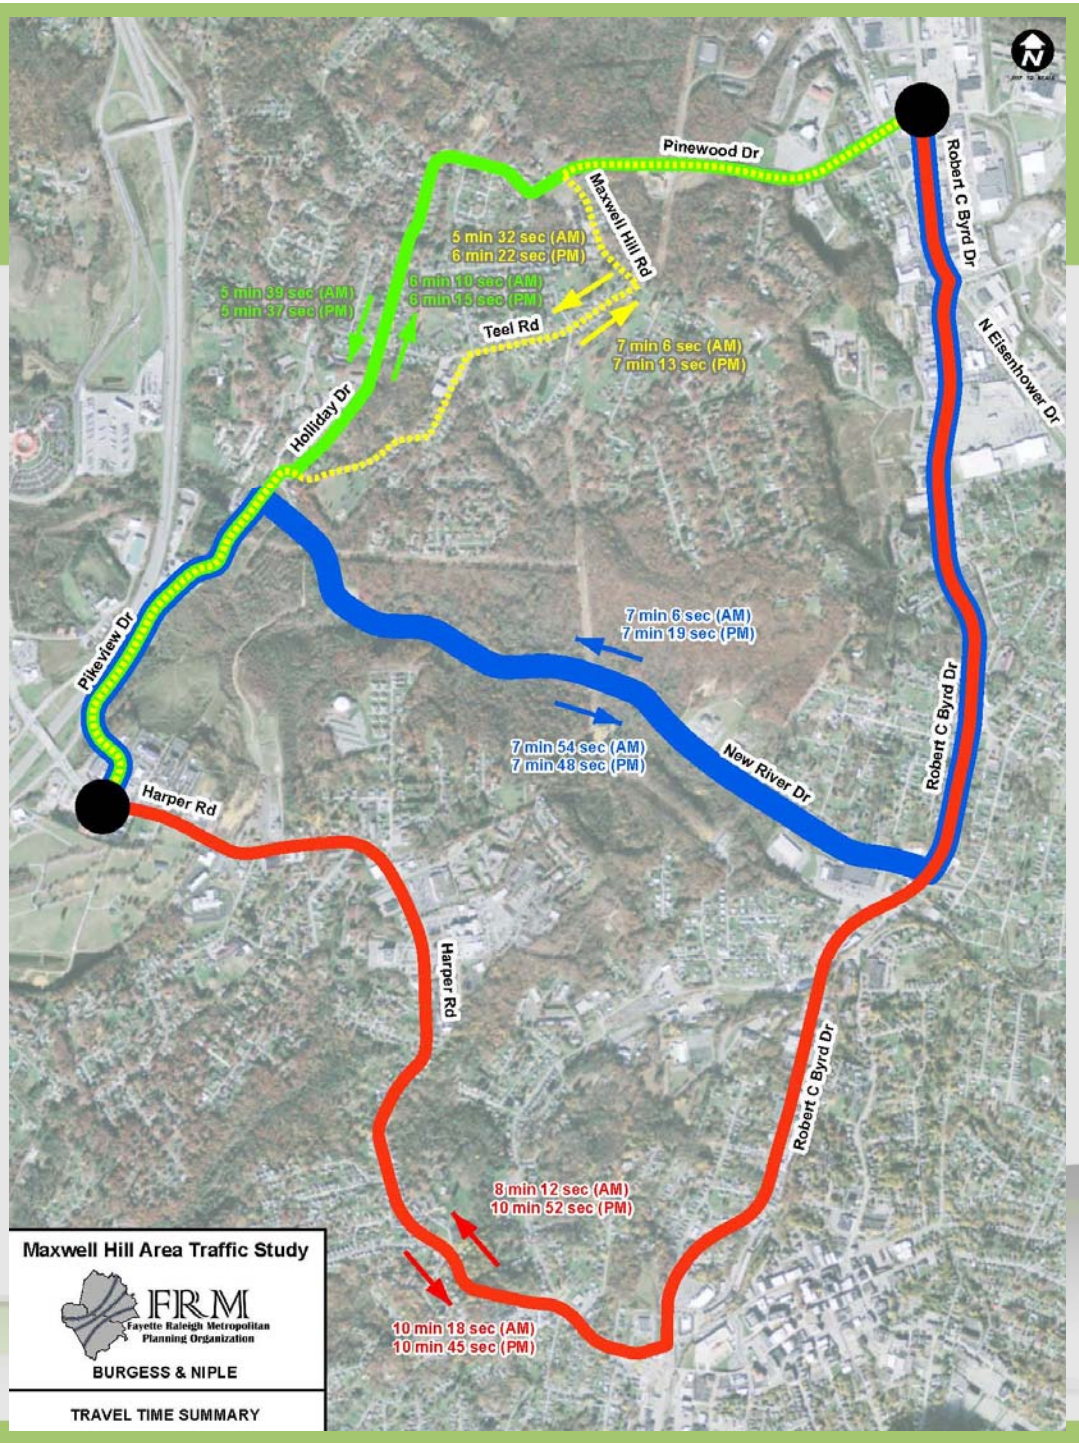
Study Process



Things to Be Considered

- Travel times
- Discouraging through traffic on residential roadways
- Encouraging traffic on non-residential routes

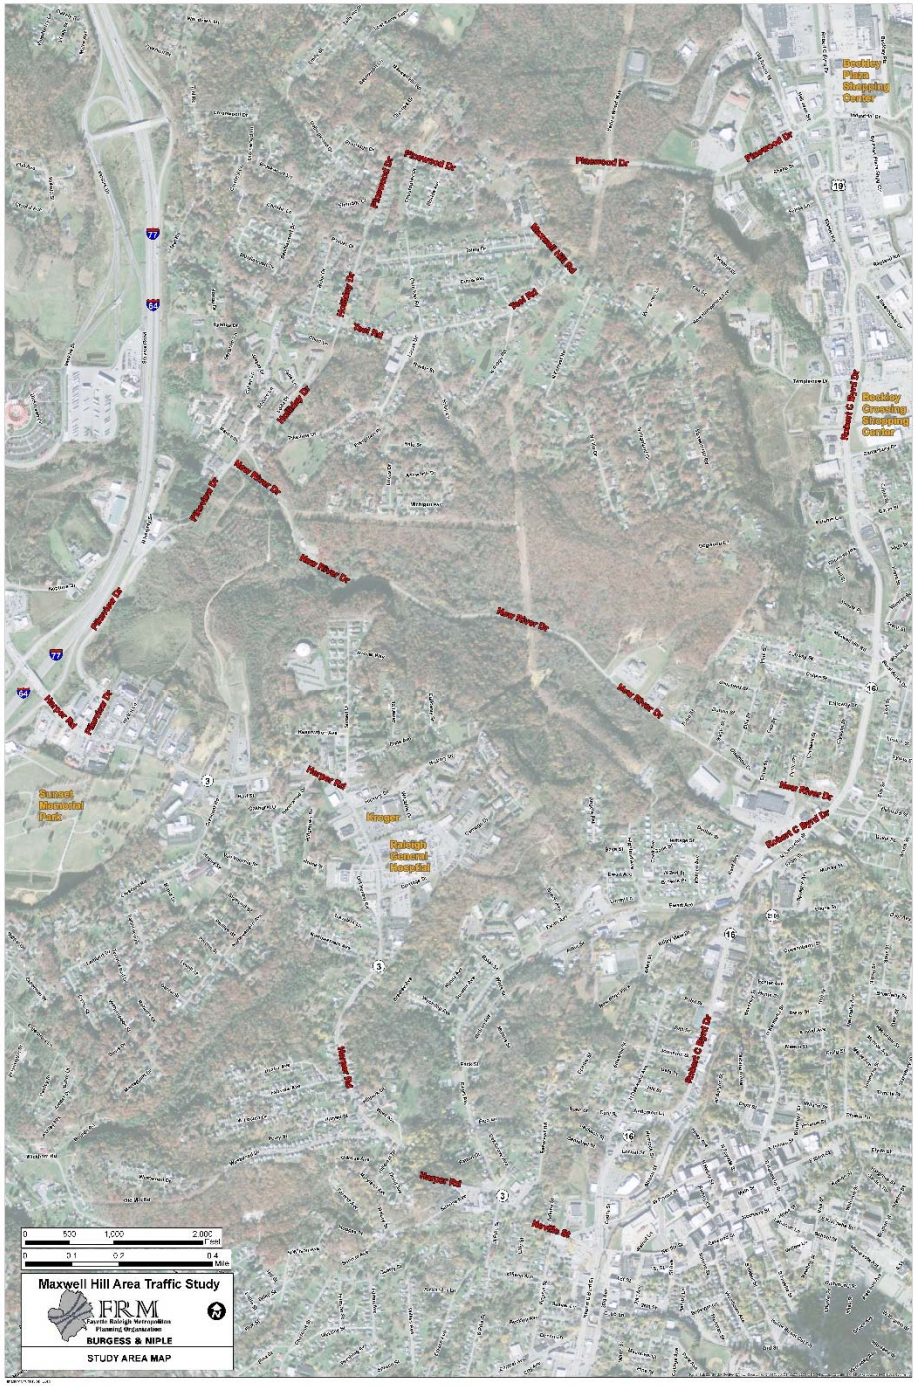
Existing Travel Times



BURGESS & NIPLE

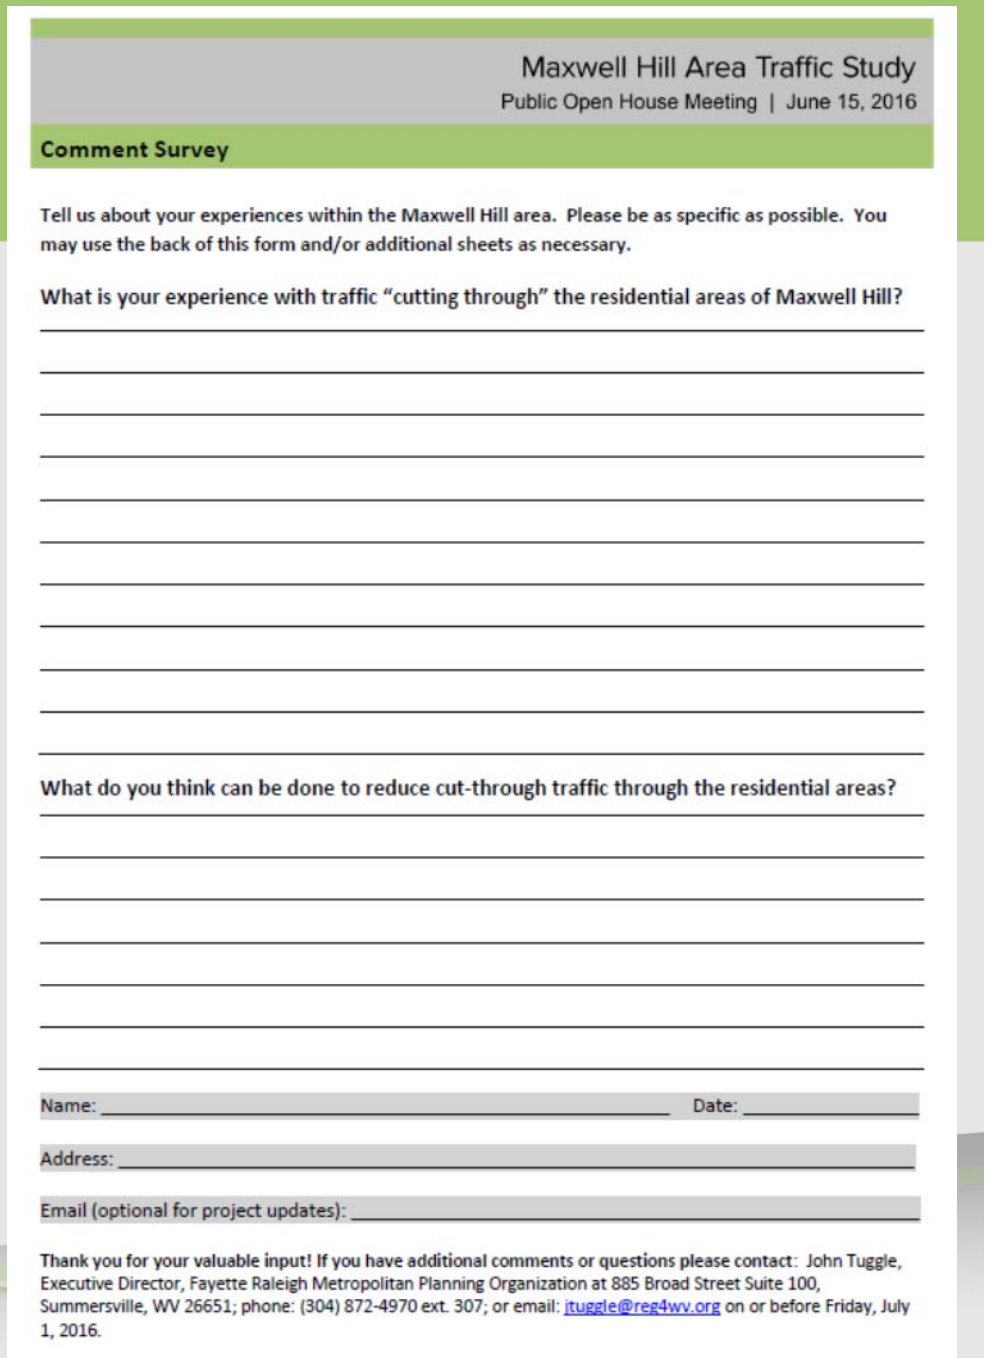
Participant Exercise

- Tell us about your specific concerns using markers on the maps



Comment Survey

- What problems do you experience with traffic “cutting through” the residential areas of Maxwell Hill?
- What do you think can be done to reduce cut-through traffic through the residential areas?



Maxwell Hill Area Traffic Study
Public Open House Meeting | June 15, 2016

Comment Survey

Tell us about your experiences within the Maxwell Hill area. Please be as specific as possible. You may use the back of this form and/or additional sheets as necessary.

What is your experience with traffic “cutting through” the residential areas of Maxwell Hill?

What do you think can be done to reduce cut-through traffic through the residential areas?

Name: _____ Date: _____

Address: _____

Email (optional for project updates): _____

Thank you for your valuable input! If you have additional comments or questions please contact: John Tuggle, Executive Director, Fayette Raleigh Metropolitan Planning Organization at 885 Broad Street Suite 100, Summersville, WV 26651; phone: (304) 872-4970 ext. 307; or email: jtuggle@reg4wv.org on or before Friday, July 1, 2016.

Next Steps

- Clearly define existing needs and problems
- Develop Options
- Evaluate Options
  - Public Meeting #2 (Late Summer)
- Final Report with Recommendations
